THE BEST NATURAL APERIENT WATER.

Considering the nature of the Hungarian Bitter Water Springs, it must obviously be desirable for the medical profession and the public to be assured authoritatively that the working of these Springs is carried on in a scientific manner, and not merely on commercial lines, and with this view the Uj Hunyadi Springs from which "Apenia" Water is drawn, are placed under the absolute control of the Royal Hungarian Chemical Institute (Ministry of Agriculture), Buda Pest.

THE MOSCOW HORROR

Gathering Up and Burying the Victims.

The Coronation Festival, held on Saturday, June 1st, was a day of horror to the people of Moscow.

Moscow, June 1.—Every effort is being made to clear the streets of the dead who lost their lives in the disaster of Saturday. To-day a number of bodies were taken from the streets and placed in the catafalque. The police declare that they had no official power on the plan and could not interfere until it was too late. All the bodies of the victims were interred to-day. About half of the dead were buried in the catafalque. The bodies of the victims were interred to-day. Daily Intelligencer.

THEY WON'T GET THERE.

In a recent issue the Dundas Banner had a very cleverly put together jumble of words entitled "Their Hour has Come," which the Toronto Globe admirably copied and called it "a ringing campaign assurance." The following few stanzas are submitted for Bro. Pirie's "serious consideration," by the Galt Reporter. If they are a little out of rhyme with the mournful dirge, they will be found quite tuneful and altogether truthful:—

They may advocate a tariff on coal oil in Lambton and promise to take it off in every other county.

They may, through Longley, in Nova Scotia, agree to retain the duty on coal and in Ontario agree that same duty may go where the woodbine twines.

They may bully the manufacturers in one town and fawn upon them in another. They may promise to secure a letting down the Yankee tariff bars in a year that elects McKinley President.

They may hold out shrievelines and registrations to every member of every local legislature—except where family interests may be involved.

They may resolve till the cows come home about the iniquities of gerrymandering—while they spit townships and villages in two on their own account.

They may enlist every bootlegger who stole money from the Quebec treasury.

They may scream out never so loudly of the unjust franchise law—while robbing the poor-day laborer on the Government railway of his vote.

They may threaten the hotel keeper and the license holder with the loss of their daily bread if the party exchequer be not kept well filled.

They may press into service every bullfinch in every province.

They may lay ingenious toll, a la Paquet and Preston, on every man who draws a dollar from every Provincial treasury.

They may prey loyalty in Ontario and preach rank treason in Nova Scotia.

They may, through Cartwright, dub every man who employs another in a manufacturing industry, a thief and a robber, and, through Mowat, offer to condone this theft.

They may engage themselves to the Ontario farmer to keep the duty on pork while offering the Chicago article free of any import to the lower province farmer.

They may talk in favor of a tariff on fruit in the Niagara peninsula, and on corn in Essex, while in the consuming section they say such a tariff is worse than war, pestilence and famine.

They may in Manitoba and Ontario hold up their hands in holy horror against remedial legislation and in Quebec agree solemnly in the face of the church, to redress the ills of the Catholic minority.

They may prate against the hierarchy in Ontario, and in Quebec "thank God there are no Orangemen amongst us, the Liberals."

They may sardoniously twist the whistles of their eyes upward in protest against electoral corruption, while 88 of their electoral representatives are having their seats taken from them by the Judges of the electoral appeal courts.

They may shout until their throats are hoarse against the contributions of men whose interests are endangered, while raising a heady fund from public contractors of half a million to purchase constituents for the Tates and Langlens.

They may hypocritically call out for clean men while electing a McNamee, who does not (per Wilmot) even know the difference between right and wrong.

They may offer a bogus commission to treat for closer trade relations with England while secretly tearing away at our britch at Washington.

They may run protectionist candidates in Hamilton and North Waterloo and rank free traders in Vermont, N.S.

They may look to Boston for a sign that will tell them to conquer and invade the assistance of every tail-twisting anglophobe organ which waltzes their success in their crusade against Canadian industry.

But, all will be in vain. The people there will repudiate them as they did in 1878, and again in 1882, and once more in 1887, and still again in 1891.

Canada for the Canadians is still the watchword of our people.

The eloquent words of the dying chief tall with the words of the dying chief in the midst of the Canada he loved so well.

"A British subject I was born, and a British subject I will die."

Yankee flags may be paraded at the head of Grit processions, for Canadians are a tolerant people, but all the same this is the song that goes:

"Give me the good old Union Jack, hoisted in boat and tent. The flag that is a nation free. The waving of a thousand years. More modern flags with mine and there. As beautiful may be; But the flag that's waved a thousand years is good enough for me."

Constitution raters more than half the size of women. Kells' Cherry Root Tea is a pleasant cure for Constipation.

EDITORIAL BRIEVITIES.

The Grits are still playing the same old discomfited tunes. Says the Montreal Gazette: "Sir Oliver Mowat began his series of speeches for Mr. Laurier's defeat, mentioning National Policy as a failure, and saying it should be abolished. The same night, and almost at the same hour, Mr. Prefontaine, another Laurier supporter, declared himself, in Mr. Laurier's presence, to be in favor of protection. Sir Oliver was speaking to an audience of farmers; Mr. Prefontaine was addressing a city gathering with many workmen in it. Who let be fooled if the Liberals, by their double policy, carry this election?"

Mr. Laurier's policy in Aid. Prefontaine's behalf last night, remarks the Montreal Gazette: "If anyone does not know who Mr. Prefontaine is they may recognize him from the following descriptive sentences taken from Mr. Laurier's journalistic friend, the Witness:—

"The man who ran the City Council for the benefit of the monopolies. The city is poorer by his being in the Council."

A record which is a scandal to the city of Montreal. No voting record can begin to denote him, or to measure the badness of his influence."

Whoever has been on the people's side, he has never been here. He has probably cost the city more than all men before him put together.

"A record which is a scandal to the city of Montreal. No voting record can begin to denote him, or to measure the badness of his influence."

Five years ago today Canada's greatest statesman and most beloved public man yielded up the life which he had willingly sacrificed in behalf of his country. We will in vain sigh for

A touch of the vanished hand And a sound of the voice that is still, but Conservatives can gratify their feelings of love and reverence for their revered Chief, by giving heed to his admonitions to preserve his policy and to turn a deaf ear to all attempts to draw away their attention from the great issue—the National Policy.

Results Tell the Story.

A vast mass of direct, unimpeachable testimony proves beyond any possibility of doubt that Hood's Sarsaparilla actually cures perfectly and permanently cure diseases caused by impure blood. Its use of cure is unexampled and these cures have often been accomplished after all other preparations had failed.

Hood's Pills cure all liver ills, biliousness, jaundice, indigestion, sick headache, rheumatism, and all other ailments.

For Dyspepsia and Liver Complaint, Hood's Pills are the only remedy to cure of Sibley's Pills. It never fails to cure.

MY MEDICINE WATCHED THE RESULTS OF AN ANNUAL EXAMINATION. I WAS WITH ANTI-SCURVY—BENEFICIAL PAINS BEYOND ENDURANCE. RELIEVED IN TWO HOURS AND CURED IN THREE DAYS.

In adding my testimonial to the many words of praise given every day in favor of Hood's Sarsaparilla, I am at a loss for words to express my feelings of sincere gratitude and thankfulness for this remedy has done for me.

At the result of exposure I was taken with a severe attack of rheumatic fever, which was accompanied by other ailments. Doctor's prescriptions and other remedies gave me no relief, and I rapidly continued to grow worse, until I was almost helpless.

Having heard of the marvellous cures effected by Hood's Sarsaparilla, I at once determined to try it, and was very expecting, however, that it would do me no good. Judge of my surprise and delight when, after taking about three doses of the medicine, the pain in my joints had almost entirely disappeared.

In three days I was able to leave my bed. By the advice of the doctor, who had watched the results of this remedy with interest, I continued to use it, and in a few days I was able to get up and walk.

Only those who have suffered from this terrible affliction can appreciate the worth of a remedy of this kind, a trial of which I would recommend to all sufferers from Rheumatism, Gout, Gravel, etc.

With best wishes for the continued success of Hood's Sarsaparilla, I am, Sir, very respectfully, Yours, GEORGE W. H. V. P. Manager, Wm. Newspaper Agency, Toronto, Can. Sold by R. Templeton.

Campaign Notes.

The work of the campaign in West Hastings, on behalf of Mr. Corby, is progressing most satisfactorily. From all over the riding come cheering reports.

Mr. B. Northrup held a fine meeting at Bogart last night. The hall was filled with enthusiastic supporters. Mr. Wm. White occupied the chair. Address were given by Messrs. W. B. Northrup and H. G. Galt. Wm. J. McNamee, of this city, spoke in support of the Corby candidate, Mr. J. M. Hurley.

Mr. Northrup was turned to-day from holding meetings at Marlburg, Bogart and Tweed, is highly satisfied with his prospects.

Mr. Belcamp's friends are investigating strongly against the treachery of the Grits in inducing their man to run and then nominating a candidate against him.

See the advertisement of Mr. Corby's campaign meeting.

Mr. Corby, who has recovered from his rheumatism, and had been unable to address a meeting at Toronto to-night.

A large and enthusiastic meeting of the supporters of Mr. H. Corby, at the front of Sidney was held last night at Mr. Lindsay's residence. The work of canvassing this portion of the riding is being carried on systematically and the reports are of an encouraging nature. Short addresses were given by a number present.

Nothing Hunts out Corns.

Like tight boots, Corns are very small affairs but they are very annoying. The best way to get rid of them is to use Putnam's Corn Remover. It is a small, white, oval-shaped piece of paper, and it is used by placing it over the corn and then rubbing it with the finger.

The Bottle You Buy is One Half Larger Than This Picture.

Beware of ANY OTHERING JUST AS GOOD Offered by the Substituter.

That wonderful and popular medicine of the age, Paine's Celery Compound, has a record of cures far surpassing all the combined records of other medicines.

In many places, however, the name of Paine's Celery Compound is used, and fresh blood and brightness is added to its name. To do its sales are enormous in every section of the continent. The risk and confidence that can never be based upon any other preparation; in short, it is only a Canadian-American family medicine.

THE RUSH WAS IMMENSE

Our Most Sanguine Expectations More Than Realized.

Never before in the history of the Clothing Trade in Belleville were clerks kept so busy, or the throng of eager buyers so great as that which attended Gough's Great Composition Sale on Saturday last. Profit was sacrificed on the altar of popularity, and everybody went away more than satisfied and delighted with their bargains, and no wonder, as owing to our composition at 30c on the \$.

BARGAINS We Were in a Position to Give;
BARGAINS We Advertised, and
BARGAINS We Did Give.

Remember this great stock amounted to nearly \$25,000 of the most Reliable, Fashionable and thoroughly up-to-date Clothing, Gents' Furnishings, Hats, &c., in Canada, and we have placed no reserve on it. Nevertheless we would remind the public that those who attend before the sizes are broken will naturally have an advantage in way of fit, &c.; and at the same time a greater range to select from. We cannot afford to state anything but plain truth in our advertisements, and anyone who will take the trouble can verify any statement we make.

We told you when we came here that we "came to stay," and stay we are going to. Ask our landlord how long our lease has to run yet, and he will tell you ten years! Yes, and likely ten years after that; therefore we warn the public to pay no attention to any report jealous merchants may say about us, particularly about us leaving here; there is not a particle of truth in it; on the contrary we intend to extend and magnify until we have one of the largest departmental stores in Canada. Our great aim, however, just now is

To Clear Out Our Present Stock,
and we assure you the public will hear great things from GOUGH and his big store in the future. In the meantime don't forget our

is now humming, and it is a Chance of a Lifetime to Secure Such Bargains!

EAST HASTINGS!

TO THE ELECTORS OF EAST HASTINGS

GENTLEMEN—

At the request of the Reform party of East Hastings I have decided to become a candidate for the House of Commons in the present election. My whole desire will be for the best interests of the country, for peace, prosperity, retrenchment and Provincial rights.

As I will not have an opportunity to make a personal canvass, I respectfully ask your votes on the 23rd of June.

Your obedient servant, J. M. HURLEY.

W. E. S. KNOWLES, Barrister, Solicitors, Notaries, &c.

Office, Hamilton and Dundas, Dundas, Ont., April 9th, 1896.

DEAR SIR—Please send me samples of wall paper as per your ad. in "Delineator." I want samples for lower and upper hall and parlor.

The rooms are large with high ceilings and I want something good—paper to cost anywhere from 30c to 50c per roll. I have samples from Eaton's, Toronto, and Alfred Twiss, York, but have not got what I want yet, so please make a good selection.

W. E. S. KNOWLES, Barrister, Dundas.

CHAPTER II. DUNDAS, Ont., April 23rd, 1896.

C. B. SCANTLEBURY, Esq. DEAR SIR—I duly received your letter and samples, for which I am very much obliged. I am better pleased with your samples than any of the others we have received.

We have decided on No. 39, Book 4, for parlor, but before doing so thought I would write you and see if you could let me have the same.

Our parlor is divided into two rooms by an arch and the ceiling is ornamented by a plaster cornice about 3 inches deep around the sides and the ceiling has a centre piece. These I suppose should be fitted.

We have not been able to decide on a hall paper but are thinking of 48c or 50c Book 4, No. 39. It is too much to ask you to put these three samples together in combination as we can judge better.

An early answer to above will oblige.

W. E. S. KNOWLES.

CHAPTER III. DUNDAS, Ont., April 23rd, 1896.

MR. SCANTLEBURY—Will you kindly send me sample of prices and ceiling to match sample enclosed.

The colors harmonize with carpet, etc. Will you kindly send us soon as possible as we want to decide in order to have the work begun.

We fully appreciate your kindness and trouble and hope the last request will not be making too much.

Sincerely yours, J. H. KNOWLES.

CHAPTER IV. DUNDAS, Ont., May 1st, 1896.

C. B. SCANTLEBURY, Esq. DEAR SIR—I duly received your invoice of May 2. You have made a mistake in your invoice by not charging me for the paper but only for the labor of hanging the room and which I understand amounted to \$10.00. I have not yet received the price for the paper and I will remit you forth with.

Very much appreciate your kind and doing with which you have treated me without doing me wrong, paying shortly and will be sure to patronize you.

Yours, W. E. S. KNOWLES.

Daily Intelligencer.
 AS TO PAIWAYS.

If there is one class in the community who, more than any other, are entitled to the consideration of the Conservative party, it is the railway men. Under the first Government of Ontario, headed by the late Sandfield MacDonald, the system of adding color to the railway was devised and was first made known to the public at Belleville. Mr. MacDonald and his Provincial Treasurer, Wood, in their speeches at the opening of the institution for the Deaf and Dumb. Mr. MacDonald's Government was, by the basest treachery, defeated on that very question, but his successors were obliged to carry out his policy, for which they therefore deserve no credit.

In the wider sphere of the Dominion the Conservative party pursued a similar policy. They not only expended considerable sums over one hundred millions of dollars in building the Intercolonial and many other Government railways, and in subsidizing the Canadian Pacific, but they have also spent many additional millions in subsidizing the extension of existing lines and the construction of new lines in the undeveloped districts, which act as a stimulant to the trade of the country. The branch of their policy have the Conservatives been so bitterly opposed by the Grit party that in their railway policy.

Therefore, we say that railway men, builders, blacksmiths and working men of all trades, which are directly affected by railway business, for many thousands of whom work has been provided by the railway policy of the Conservative party, owe them a debt of gratitude which they ought to consider when they go to the polls to vote. Let them, one and all, consider that they might have failed to find the employment which they now enjoy, or that, but for the enlarged ideas and progressive policy of the party now in power, they might be idle at home earning their living in a foreign land under conditions much less satisfactory than prevail here.

The following figures, taken from the official reports, will, much more eloquently and forcibly than can otherwise be done, bear out the assertions which we have above made.

In 1867, when all the provinces of Canada were united, there were 2,236 miles of railway completed. Now there are 16,091—an increase of 13,855 miles.

The Dominion Government has contributed to the cost of \$80,000,000 of the Canadian Pacific Railway, and the Provincial Governments \$1,844,000,000, or less than one-fifth of the sum per mile contributed by the Dominion Government, to all railways constructed since Confederation.

The returns of earnings and working expenses do not extend back further than 1875, and the comparison with 1865 is as follows:

	Gross earnings	Working expenses
1865	\$1,750,000	\$1,750,000
1875	\$2,100,000	\$1,750,000

RAILWAY CONSTRUCTION EXPENDITURE—REVENUE AND WORKING EXPENSES.

The following shows the total of the expenditure for the construction of railway works or grants in aid of such construction; embracing the period from Confederation and extending down to the 30th of June, 1895.

	Intercolonial Railway system as established by the Dominion Government	Canadian Pacific Railway	Grand total
1865-75	\$5,000,000	\$5,000,000	\$10,000,000
1875-95	\$5,000,000	\$5,000,000	\$10,000,000
1895-96	\$5,000,000	\$5,000,000	\$10,000,000

Grand total \$30,000,000.

The most complete Gas Range

EVER MADE. Giving many entirely new features. All kinds of cooking can be done, while the special arrangements for Boiling, Toasting and Heating Irons are unequalled.

WE GUARANTEE that any family wanting a thoroughly satisfactory range in every respect can find it in this.

No Man

Would feel the heat of Summer half as much if he would take the precaution to dress properly.

At an expense of it, take any kind of dress, for instance, wear a badly stained shirt and collar and your ordinary business coat in the morning; then at noon change to a negligee shirt and one of our summer suits for afternoon wear.

The hottest days in summer can be made enjoyable if you'll only dress consistently.

Try this plan.

Our Carpenter and the Painter will be glad to commence the alterations to our store. We are expecting one of the prettiest store fronts in the city, and our store interior will be arranged with a view to increase accommodation.

Our Attention Sale goes on as clarification of these improvements. Our reduced prices are doubly as broad of goods, thus making our contemplated improvements matter of accomplishment.

Take advantage of this sale—there's money-saving in it for you and less goods for us to take care of during the confusion.

Catering . . .

—that is—successful catering—is an art. So many taste to cater to make a task that will test the capacity of the cleverest "chef."

In all our catering experiences we have yet to learn of a dissatisfied person.
